2017 STRATEGIC PRIORITIES:

High Speed Rail

The City of Morgan Hill will directly advocate for our community's needs through our communications, discussions, and decisions. We will continue to engage the community, the High Speed Rail Authority, our state and federal legislators, and other regional agencies to mitigate negative impacts and convey our position that the High Speed Rail Authority should only use the existing Highway 101 right-of-way to avoid all impacts to residents, schools, and businesses. Should the Authority decide the 101 right-of-way is not feasible, we will strongly advocate for the route with the least impact on Morgan Hill.

Inclusiveness

We will celebrate the diversity, history, and culture of our community. Through City Council workshops, community meetings, and researching successes in other communities, the City will listen to and collaborate with the community to define how inclusiveness will be further woven into our community's fabric and to increase public participation. The City's communications, services, public spaces, and projects will embrace all community members as partners, advancing our vision of being a socially responsible community.

Infrastructure

The City will review its streets, parks, and public facilities infrastructure needs initially by updating its 2014 infrastructure study to quantify the funding gap. We will identify potential funding options as ongoing revenue is insufficient to fund our vital community assets at a sustainable level without significantly impacting existing service levels that our community has come to expect. Morgan Hill will actively work with the Valley Transportation Agency, the County, and the State to secure funding for the Santa Teresa extension and road maintenance. We will continue to work closely with our community to inform them of the needs and engage them to find an affordable and sustainable solution.

Regional Initiatives

City Council and staff will focus on influencing regional decisions that benefit Morgan Hill. This regional involvement will include, but not be limited to, partnering with the League of California Cities, Valley Transportation Authority, Santa Clara Valley Water District, Cities Association of Santa Clara County, the City of Gilroy, Santa Clara County, Morgan Hill Unified School District, the Local Agency Formation Commission, the Open Space Authority, and Silicon Valley Clean Energy to advance projects that further Sustainable Morgan Hill.

Telecommunications

The City will collaborate with the private sector to explore ways to provide fast, reliable access and wireless connectivity for residents and businesses. The 2016 Telecommunications Infrastructure and Economic Development Blueprint reports will be the foundation for continuing discussions with broadband providers, public utilities, and other infrastructure service providers in developing an implementation plan for growing our telecommunications infrastructure. The plan will be used to signal Morgan Hill's support for business expansion.
